National CACFP Association Resource Usage

Note that sponsors' and members' rights to reprint or use NCA materials are limited. You may print or share as many resources as you would like. You may disseminate the resources anywhere you would like, and add your logo and agency information to them. However, permission is not granted to reproduce or alter the images or text on NCA materials, which includes PDFs, graphics, images, social media posts and screenshots of web pages at cacfp.org, in any way.

When used for your own staff training purposes, you may direct attendees of your own webinars to NCA's resources, but may not use the content directly in your own presentations.

You may not add the NCA logo or the CACFP Creditable logo to your own materials for use on a website, social media or other marketing purposes without the material being approved by NCA. If you would like to rebrand any materials using content developed by NCA, please contact us at nca@cacfp.org.
