Tool Chest

Craft sticks allow imaginations to create almost anything! Offer additional building supplies like glue, play-doh, tape, yarn, and paint without instructions to encourage kids to craft, invent, and create on their own.

Nuts & Bolts Mix

Pretzel sticks
Cereal, assorted shapes

Put out bowls of various WGR pretzels and cereals together with measuring cups and teach kids how to build their own healthy snack. Serve with a glass of milk.

#CACFP CREDITABLE

Construction Zone

Place a set of orange cones across your yard and have children work together in crews to beat the buzzer. Give them five, then four, then three, then two minutes to weave through the course and back, tag up, and send the next child off.

CREW

Body Building

Calcium is a critical building block for growing healthy bones. Serving milk is a great way to be sure children are getting the required daily amounts of this essential mineral.

CACFP is an indicator of quality child care.
